

## PROFILE SUMMARY

**Leslie Asamo**  
Birth Year: 1978  
Nationality: British  
Residency: Germany

**Contact information:**

Phone: +49 15223222208 / +233 55 2515691  
Email: [leslieasamo@datamavens.io](mailto:leslieasamo@datamavens.io)

### Functional Role Experience

- Enterprise Architect
- Solution Architect
- Business Processes Analyst
- Workload & Process Automation
- Data Architect
- Data Modeling Specialist
- ERP Solutions Architect
- CRM Solutions Architect
- DevOps / Systems Architect
- Systems Administrator
- Systems Support
- Test Manager
- Technical Writer

### Technical Experience

- Managing development, configuration and deployment of Custom Code (Java, Scripting, ETL)
- Building Data Access Frameworks/API (Java, ETL, Analytics)
- Managing Code Standards, Release Management and Documentation
- Documenting Technical Risk Evaluations
- Performing business and technical planning pre-Coding and post-Implementation
- Testing and Automation

### Languages

- English – Native
- Akan (Twi, Fante) - Modest
- Finnish – Basic
- Ga – Basic
- French - Basic
- German – Beginner

### Certifications and Accreditations

- AWS Business Professional
- AWS Professional Services: Cloud Advisory
- AWS Solutions Training for Partners: Security Governance at Scale – Technical
- AWS Professional Services: Security Best Practices
- AWS Solutions Training for Partners: Tailored
- AWS Solutions Training for Partners: Building Your Business with AWS for Executives – Business
- AWS Professional Services: Cloud Adoption Framework
- VMware Technical Sales Professional for Modern Applications Platform 2020
- VMware Sales Professional for Modern Applications Platform 2020
- VMware Sales Professional for Cloud Provider 2020
- Mirantis Sales Enablement
- Mirantis Technical Sales Enablement
- Snowflake Technical Sales Professional
- Snowflake Sales Professional
- Google Cloud Platform (GCP Fundamentals) Core Infrastructure
- Unified Modelling Language (UML) 2.0
- eZ Publish Selling Certification (CRM Solutions)
- Structured Systems Analysis and Design Methodology(SSADM)

PROFILE SUMMARY

**Education**

- Financial Accounting for Business Executives - Helsinki School of Economics Executive Education  
2007 02 – 2007 04
- BTEC National Diploma Electronic Engineering - Highbury College, Portsmouth, UK  
1997 08 – 1998 07
- Applied Electricity and Electronics
- Mfanstipim College, Cape Coast, Ghana  
1993 01 – 1996 07

**Market Segment Know-How**

- Banking and Finance
- Telecommunication
- HealthCare
- Retail
- Publishing

## PROFILE SUMMARY

### Project Experience

#### **Data Mavens Limited**

**2017 - Present**

Accra - Ghana

Director, Technology Lead

Data Mavens Ltd is a data centric technology company aimed at improving productivity, efficiency and customer interaction, controlling costs while increasing management visibility across the spectrum of our client's enterprise.

- Establishing Data Mavens' turnkey Technology Alliance Partners
  - Atlassian
  - Microsoft Azure
  - Red Hat
  - Snowflake
  - AWS
  - Google Cloud
  - VMware
  - IBM
  - Mirantis
  - Confluent
  - Imply
  - Run Deck
  - BMC
  - Sentry Software
  - Splunk
  - Darktrace
  - Odoo
  - Oracle
- Leading and Creating Skills enablement for Partner Professional Services and Delivery
  - Snowflake
  - VMware Tanzu (Kubernetes for Modern Applications Platforms)
  - AWS
    - Security
    - Migration
    - Service Management (ITSM)
    - Cloud Native Development

- Google Cloud
- Red Hat
- Atlassian
  - Cloud Migration
  - Jira Align
  - ITSM
- Mirantis
  - Docker Enterprise
  - Kubernetes
  - Lens
- Splunk
  - COVID-19 Analytics
- Marketing Analytics
  - Facebook
  - Instagram
  - Twitter
  - Google Ads
  - Microsoft Bing Ads
  - HubSpot
- Tools and Solution Evaluations
  - Salesforce vs HubSpot vs Odoo
  - BMC Control-M vs Rundeck
  - Sentry Software for Monitoring
  - ITSM with Atlassian
- Business Development and Enablement

#### **TG Group International GmbH**

**2013 - Present**

Munich - Germany

Lead & Senior Control-M Workload Automation Administrator & Enterprise Architect (Finance)

- Design implementation of BMC Workload Automation tool, Control-M, in the production lifecycle of a European Leading Bank for the Post Trading Services, function of Markets & Treasury solutions.
- Design and deploy job/task scheduling Enterprise-wide infrastructure in production operations and Architectural support in Data warehousing

## PROFILE SUMMARY

Developments in both financial & telecommunication sectors.

- Establish standards, policies & procedures for workload automation Enterprise-wide in financial sector.
- Advisory on methods, techniques and evaluation criteria to obtain best possible needed automation process.
- 2<sup>nd</sup> & 3<sup>rd</sup> Level Support for production control operation, thereby troubleshoot to identify and resolve complex workload automation and job/task scheduling issues and support application development, coding, release management, testing and implementing various process to support the workload automation.
- Monitoring, reporting on relevant KPIs & SLAs and documentation of workload automation and job/task scheduling processes and procedures which are complex in nature.

### Contractual Partner(s):

- TopIT Services AB
- BMC Professional Services

### Clients:

- UniCredit Business Integration Solutions GmbH
- Vodafone GmbH,
- WireCard Bank AG,
- PAYBACK GmbH (American Express/Loyalty Partners),
- Takko Holding GmbH

### Key Tools for Delivery:

- BMC Control-M Workload Automation, Splunk Enterprise, Informatica PowerCenter, Pentaho Data Integration (Kettle/Spoon), Unix Scripting, Java, JIRA, Git, MagicDraw UML

### **Path 4More Ltd**

**2013.03 -2013.09**

Helsinki - Finland

**Role:** Lean Coder for Startups

- Working with various startups in implementation of VAADIN for products. Extending Podio Reporting capabilities using Java and VAADIN. Migration of VAADIN 6 projects to version 7.

### **Key Tools for Delivery:**

- VAADIN 6 & 7, Eclipse, MagicDraw UML, Podio, Trello, BaseCamp

### **Various Other Startups**

**2013.03 -2013.09**

Helsinki, Finland

Accra, Ghana

**Role:**

Technology Business

Development/Consultant

- Developing and implementing Citrix Podio for 50+ collaboration partners.
- Creating technology partnerships for SmartSearch Document Management solutions
- Implementing lean operational Business Processes Management (BPM) solutions for small-scaled micro-finance institutions in developing economies
- Delivered Enterprise Solution Architecture Consultancy projects with clients

### Key Tools for Delivery:

- Lean Business Process Management (BPM) solutions implementation.

## PROFILE SUMMARY

### **Mærsk Line A/S**

**2012.10 – 2013.02**

Copenhagen – Denmark

**Role:** Enterprise Architecture  
Documentation

- Document the Architectural Documentation Package (ADP) and System Life Cycle documentation
- Detailed Design Documents of the Finance Reporting solution developed on Teradata
- Prototyped the Teradata Meta Data Services (MDS) with integration to Teradata Studio to show all interdependencies between Macros and the Tables or Views they affected
- Analyzed relationships and evaluated for consistence and compliance to the adopted framework.

Contractual Partner(s):

- Teradata Denmark

Key Tools for Delivery:

- Enterprise Architecture Documentation, Teradata Meta Data Services (MDS), Teradata Studio, and MagicDraw UML.

### **Candela Capital Inc.**

**2012.05 – 2012.08**

Ghana – West Africa

**Role:** Technical Director and General  
Manager

### Key Tools for Delivery:

- Capability Management, Communications, Technical Expert on Web Analytics, Data Capturing and Metadata Concept Owner, Requirements Management, Enterprise Architecture

### **Belgacom Mobile, Proximus**

**2007.04 – 2007.12**

Brussels- Belgium

Senior Consultant

- Ported the documented end-to-end data flows of the client's network applications and packet switched traffic services over the GPRS and IT infrastructures into a managed UML Solution indicating the security devices, the Content Switches and Cisco IOS Load-balancers and partially captured their configuration.
- Developed an entirely new structure for the infrastructure information update and reusability for Impact Analysis
- Extended the UML notation to create a specific domain model with which to gain the need efficiency
- Gained understanding and extensive knowledge into eTOM SID, OSS and BSS requirements and implemented them into the solution

### Key Tools for Delivery:

- Agile, Solution Architecture, Infrastructure Architecture, Training, Mentoring, Configuration Management, Release Management, MagicDraw UML, MS Visio, MagicDraw Teamwork UML, MDA
- Mobile data network infrastructure: Cisco WEB application servers, GPRS and Mobile Internet Service appliances, Unix and Windows – (DNS/Mail Relay) servers, Cisco Routers, Alcatel MPLS Routers, Cisco Proxies, and Nokia Check Point Firewalls, Juniper Netscreen Firewalls, Cisco Intelligent Networks (IN) appliances, AAA/LDAP, Billing and Mediation appliance, Charging Gateway appliance

## PROFILE SUMMARY

**Nokia**  
**2000.05 – 2007.04**  
Espoo – Finland

**Role:** Senior Consultant, Technical Architecture

- Delivered an unbiased analysis on RFID technology for manufacturing and logistics operations support

Key Tools for Delivery:

- Agile, NOCOP, Project Management, Business Analysis (BPM, UML), Process and Quality Assurance, RFP Valuation, and Workshop Lead, Enterprise Architecture Strategies, Vendor Evaluations, and Radio Frequency Identification (RFID) in Supply Chain and Manufacturing

**Role:** Senior Consultant, Technical Architecture

- Evaluated VoIP architecture and aligned the Corporate Security and Sarbanes Oxley Act (SOX) requirements to the VoIP technology implementation
- Developed a VoIP Taxonomy for the Enterprise Architect community

Key Tools for Delivery:

- Agile, NOCOP, Project Management, Workshop Lead, Information Architecture, and Security Analysis, Organising workshops

**Role:** Senior Consultant, Technical Architecture

Led the technical implementation of the Campaign Management and Content Customisation solution

Key Tools for Delivery:

- Agile, NOCOP, Project Management, UML, Configuration Management, Team Leadership, EAI, ETL, RUP/Service Architecture Approaches

**Role:** Senior Consultant, CRM Solutions Management & Campaign Management Development

- Managed the creation and deployment phases of the project
- Requirements and analysis, creation and implementation of this multi-million euro CRM solution
- Adapted the NOCOP model to allow an Maintained the service architecture for CRM and Campaign Management Applications & to allow an iterative approach (Agile) to improve performance in vendor-products
- Developed the Campaign Management Data Model
- Provided consultation for other programs requiring integrating into the CRM platform
- handled development of additional features for Web Campaigns, improving the architecture across the board to enable basic to advance business intelligence reporting
- Managed onshore and offshore developers assigned to the team

## PROFILE SUMMARY

### Key Tools for Delivery:

- Agile, NOCOP, Project Management, Release Management, Configuration Management, Team Leadership, and Service Architecture Management
- UML Data Modeling, Configuration Management, Change Management, Enterprise Application Integration (EAI & ETL), RUP, Service Architecture, Business Analysis, BI, Content Management, and Infrastructure Architecture
- MagicDraw UML, Chordiant Marketing Director, Oracle, Informatica PowerCenter, Documentum Web Publisher and Content Management Suite, Siebel Integration

**Role:** Senior Consultant, Enterprise Messaging Platform Architecture Development

- Managed the architecture of the Enterprise Messaging Gateway for Short Messaging Service (SMS), Multimedia Messaging Service (MMS) and Email.

### Key Tools for Delivery:

- Agile, Project Management, NOCOP, Requirements Management, Change Management, RFP, Infrastructure and Enterprise Solution Architecture, UML

**Role:** Java Developer and Systems Analyst

- Developed and implemented core business logic based on his analysis using design patterns
- Developed a dynamic Cache module/service for the non-EJB components (Data Access Layer) with time-based content-management by extending the Java API

- Developed JSPs, Servlets, JavaBeans and Enterprise JavaBeans, that interacted with an Oracle7 DB backend
- Supported the codebase for the online shopping cart using Netscape MerchantXpert and ECXpert.

### Key Tools for Delivery:

- Java, OOD/A, UML, XML, getAccess API, Unix, CGI, EJB, JSP, Oracle DB, Unix

**Yeoman Group PLC**  
**2000.03 – 2000.05**  
UK

**Role:** Developer and Systems Analyst

- Implemented a 2-tone graphic global guidance system over WAP and WAP over SMS
- Developed JSPs, Servlets, JavaBeans and Enterprise JavaBeans, that interacted with an Oracle7 DB backend
- Supported the codebase for the online shopping cart using Netscape MerchantXpert and ECXpert.

### Key Tools for Delivery:

- Java, WAP (WML/WMLS), XML, GSM, SMS, VB, VC++, UML, OOD/A, COM/DCOM
- JBuilder, Visual Studio, Nokia WAP Server 1.0 and 1.1 with 56-bit Security Layer, IIS, MapInfo (<http://www.mapinfo.com/>), Traffic Master, GPS, GSM, SMS, Windows CE Hitachi SuperH SH-3, SOAD (Simply Object Analysis and Design), Ericsson Visual Net (Mobile Network Generating Tool).

PROFILE SUMMARY

**Deloitte Touch Tohmatsu Limited**  
**1999.02 – 2000.01**

London – UK

**Role:** Developer and Business Analyst

- Developed reports to magnify data discrepancies in any external data received from OneSource against national database at Companies House (<http://www.companieshouse.gov.uk>).

Key Tools for Delivery:

- COM, DCOM, MTS, COM+, ActiveX, and Active Server Pages, Microsoft SDK for Java, JDBC/ODBC

**(Temping)**  
**1998.09 – 1999.01**

Hampshire – UK

**Role:** Developer and Systems Analyst

- Delivered an administration support system to process and tag medical equipment on delivery, dispatch and maintenance
- Supported daily administrative task included liaising with medical equipment manufacturers in UK.

Key Tools for Delivery:

- COM, ActiveX, MS Access forms, queries and reports, MS Office, MS Visual Studio

**International Technical Publications**  
**(Temping)**

**1998.04 – 1998.06**

UK

**Role:** Visual Basic for Applications Developer and Technical Writer

- Developed and extended using VB/VBA and ActiveX, documentation editing processes capable of correcting Optical Character Recognition (OCR) scanned data into formatted electronic copies of a technical document.

Key Tools for Delivery: VB, VBA, ActiveX, MS Visual Studio

**Cendant UK Ltd.**

**(Temping)**  
**1997.09 – 1998.04**

Hampshire – UK

**Role:** Specialist & Support

- Supported data cleansing for this Hampshire based Credit Card Insurance company

Key Tools for Delivery:

- MS Access forms, queries and reports, Visual Basic for Applications (VBA), Data analysis and data store design MS Visual Studio, MS Office

PROFILE SUMMARY

**Estee Lauder**  
**(Temping)**  
**1997.03 – 1997.09**  
UK

**Role:** Specialist and Support

- Provided all-round support for audit/accounting/book-keeping and PC support, installing software packages and operating systems

Key Tools for Delivery:

- Basic accounting and auditing, payroll, ActiveX, MS Office, FoxPro EPOS

**MAKS Ltd.**  
**1996.12 – 1997.09**  
Accra – Ghana

**Role:** DB Specialist & Systems Support

- Developed a DB containing distributors
- Used data manipulation and migration techniques from FoxPro and Excel into Access databases
- Installation of Software and Hardware

Key Tools for Delivery:

- VB, VBA, VBScript, JavaScript, MS Access and HTML, MS Office, Visual Studio, FoxPro

**Health Guide Ltd./ Ghana Review International Ltd.**

**1995.12 – 1997.09**  
UK & Ghana

**Role:** Specialist

- Worked with the graphic designer to produce and typeset two quarterly publications for this local health magazine

Key Tools for Delivery:

- DTP, Typesetting, Proofreading, Adobe FrameMaker/PageMaker/PhotoShop, QuarkXPress, and MS Word
